Re: AP Macroeconomics 2017 Summer Project

All AP Macroeconomics students who are enrolling in this course are expected to take the AP exam (and pass it) in May. To be successful to that end requires rigorous preparation, as part of that preparedness: AP Macro students are required to read (thoroughly) during the summer the book “Freakonomics” by Steven Levitt. Additionally, students will write a seven page APA style research paper chronicling their findings (including: analysis and interpretation)-this assignment is due no later than August 18<sup>th</sup>, 2017. Have a “Great Summer” ...Mr. A. Brooks!
