

Analytic Geometry and Accelerated Analytic Geometry Summer Assignment:

You will be using Brain Genie to solidify your fundamental algebra skills in preparation for either Analytic Geometry or Accelerated Analytic Geometry. Each week, you will have a set of assigned skills that you need to conquer. This assignment will take time to finish and it is strongly recommended that you work on this assignment daily rather than waiting to do it at the last minute. Your first two quiz grades will be based on your completion of this assignment.

What you will need to do:

1. Create an account at braingenie.com

*If you already have an account, you do not need to make a new one. You can simply go to step 2.

*Make sure your actual name is included when you create your account or you will not earn credit for this assignment.

2. Once you are logged in to your account, go to join a class and enter the following code: **z2apkary.**

3. Complete the skills assigned for each week. Keep in mind that some weeks have more skills than others do. You will earn a flag when you conquer a skill. Make sure that you fully conquer every skill in the set.

Good luck!
